Armoring Services

Muzzle Flash on "Nest of Angles"

Movie Guns

Since the supply of real firearms to film sets is often costly to productions, Mantis offers a large selection of replica hand/long guns requiring a much smaller investment to rent. Movie guns (replicas) look and act like the real thing and are camera friendly for close ups.

For blank firing scenes, all movie guns supplied by Mantis are safe and reliable. Mantis's movie guns have all been tested and prepared for use on set. Mantis will always have back up blank firing movie guns on set so the scene can run without delay.

Gun Wrangling Services

Licensed with a Canadian Government Firearms Business License, Mantis rents replica and real firearms to the Canadian film and theater industries.

We supply gun wrangling services for on set blank firing scenes. Safety is our primary concern when actors or stunt players are involved in scenes requiring firearms.

From arrival on set, to the scene unfolding, Mantis gun wranglers make sure the production, actors/stunt players are fully debrief so the action will unfold without delay.
